

Catalytic Cadence Collective, Inc (C3) is the figure skating company based in Boulder providing instruction, training, and multimedia entertainment. C3 Ice Academy is our instruction program, which aims to assemble quality competitive youth and collegiate teams to begin representing Boulder in the 2012-13 season.

U.S. Figure Skating is recognized by the ISU (International Skating Union) and the USOC (US Olympic Committee) as the NGB (National Governing Body) for figure skating in The United States. U.S. National competitions are the annual stepping stones for World and Olympic competitions in figure skating, which are sanctioned by ISU.

We are fully sanctioned by U.S. Figure Skating and have a basic skills and a skating club sanction (Boulder Figure Skating Club). Lessons are held at CU Boulder Ice Arena and WinterSkate by Boulder Creek Events. We own a 16' x 24' synthetic ice surface for performance & residencies as well.

The Skating Director coaches & is responsible for selecting additional instructors & private coaches based on our program's needs and goals. Staff Pros are required to hold a bachelor's degree related to the field and maintain the appropriate CER with U.S. Figure Skating and PSA (Professional Skaters' Association). C3 coaches taking skaters to nationally qualifying competitions should be PSA members. JR Staff Pros are available for basic skills lessons.

We are a 501c3 non-profit company organized for the purpose of providing recreational, introductory, competitive, performance, and professional opportunities for hopeful & experienced figure skaters in the Boulder area.

For more information on C3 Ice Academy, or the company, contact Skating Director Cliff Patterson by phone 720.447.0395 or by email catalytic.cadence@gmail.com
